About me

I'm a frontend developer with over 3 years of experience in web development. I develop new user-facing features using React.js, translate designs and wireframes into high-quality code, build reusable components and front-end libraries for future use and optimize components for maximum performance across a vast array of web-capable devices and browsers

Skills

- HTML5, CSS3 & JavaScript ES6+
- SCSS, Tailwind, Bootstrap & Material UI
- React with Hooks & Redux

- Data Visualization with D3.js
- Testing with Jest
- Webpack & Firebase

Employment

- **Frontend Developer**
  AStrick IT Company· 2019 - 2020
  · Built frontend of web applications using using html, css, javascript & bootstrap
  · Closely worked with back-end developers to optimize existing Web technology and create the best possible user experience.

- **Frontend Developer (React)**
  Intelzy Software Company · 2020 - 2022

Experience

DeFi News (demo)
Decentralized Finance News Articles Web App that uses Zebec Protocol under solana blockchain for payment stream when users read the articles. It was mentioned as Honorable Mentions in Zebec Protocol's global hackathon 2021

ML-Solution (demo)
A web based GUI application for generating Machine Learning Models by uploading dataset as an csv file and selecting the attributes for the model. It provides visualization of datasets in various formats and allows users to download the generated model in different file types (example: pickle file).

Education

Bachelor's in Computer Science & Information Technology
Lumbini ICT Campus (Tribhuvan University affiliated), Nawalpur, Nepal
2015 to 2019

Certifications

- Responsive Web Design
- JavaScript Algorithms & Data Structures
- Front End Development Libraries

- Data Visualization
- MongoDB Basic
